The Trustees of Reservations
1977 Annual Report

The Trustees of Reservations

Eighty-Seventh Annual Report

224 Adams Street
Milton, Massachusetts 02186
Telephone: (617) 698-2066

The Trustees of Reservations is a privately-administered, charitable corporation, founded for conservation purposes in 1891 to preserve for the public, places of natural beauty and historic interest within the Commonwealth of Massachusetts. Contributions are deductible under Federal income tax law.

Officers and Committees

Officers

John M. Woolsey, Jr., *President*
David C. Crockett, *Vice President*
Augustus P. Loring, *Vice President*
Mrs. William C. Wigglesworth, *Vice President*
Henry R. Guild, Jr., *Secretary*
H. Gilman Nichols, *Treasurer*

Standing Committee

Theodore Chase, Dover, *Chairman*
Mrs. John M. Bradley, Manchester
Paul Brooks, Lincoln
Mrs. David C. Forbes, Sherborn
Henry R. Guild, Jr., Dover
John Hay, Brewster
Robert Livermore, Jr., Beverly
Charles P. Lyman, Canton
H. Gilman Nichols, Essex
Mrs. Robert G. Potter, Edgartown
Andrew J.W. Scheffey, Leverett
Charles W. Schmidt, Wayland
Mrs. William C. Wigglesworth, Ipswich
John M. Woolsey, Jr., Cambridge

Advisory Council

Mrs. William C. Brewer, Jr., Manchester
Mrs. I. W. Colburn, Manchester
Daniel J. Coolidge, Boston
David C. Crockett, Ipswich
Charles W. Eliot, II, Cambridge
Richard L. Frothingham, Dedham
Roland B. Greeley, Lexington
Henry R. Guild, Needham
John T. Hemenway, Milton
Peter L. Hornbeck, North Andover
Arthur M. Jones, Newbury
John W. Kimball, Andover
Augustus P. Loring, Beverly
Henry Lyman, Cambridge
Charles E. Mason, Jr., Chestnut Hill
Mrs. August R. Meyer, Belmont
Lawrence K. Miller, Pittsfield
Thomas L. P. O'Donnell, Hingham
J. Graham Parsons, Stockbridge
Miss Amelia Peabody, Dover
Arthur H. Phillips, Ipswich
Sidney N. Shurcliff, Boston
Charles R. Strickland, Plymouth
Mrs. Richard D. Thornton, Concord
Thomas B. Williams, Dover
Laurence M. Channing, Esq., *Counsel,* Boston

Foreword

The activities of The Trustees of Reservations, both in the management of our own properties and in our participation in the wider community, revolve around the preservation of open space and the wise use of land. We have been heartened by the process recently completed by the Commonwealth's Office of State Planning in encouraging each town and city to prepare a Local Growth Policy Statement and in assembling the local and regional reports in an over-all Massachusetts Growth Policy Report published in September, 1977.

This report, entitled "City and Town Centers: A Program for Growth," is a wide-ranging and perceptive review of the effect of population pressure and automobile-induced sprawl on the Massachusetts landscape. Its analysis of regional and state-wide problems and its recommendations for land-use priorities are persuasive. The main thrust of the report is that major emphasis be given to revitalization of community centers, especially in urban areas, and that further suburbanization of the countryside be curtailed.

Of particular interest is the finding that the primary concern of most of the Local Growth Policy Committees is preservation of the character of the community. This may mean different things to different communities, but in each case it includes a genuine belief that the physical aspects of the community are important—architecture, open space, the arrangement of buildings upon the land and local history and traditions.

We commend this report to you. It should have wide circulation throughout the Commonwealth. Although it may not address directly all of the land-use problems we are facing, it is an excellent beginning.

In a variety of ways The Trustees of Reservations has made a substantial contribution to the maintenance of the Massachusetts landscape and to the character of its communities, by preservation of highly visible open space, by maintenance of historic houses, by ownership of parcels of land of ecological significance and through ownership of conservation restrictions. This program has never been more urgent. In the words of The Nature Conservancy "what we have saved and what we will save in the next few years will be all that will remain to be passed on to future generations." Open space once lost cannot be reclaimed. The revaluation for real estate tax pur-

poses of open land in many of our rural communities is putting increased pressure on many owners of large tracts to subdivide and sell.

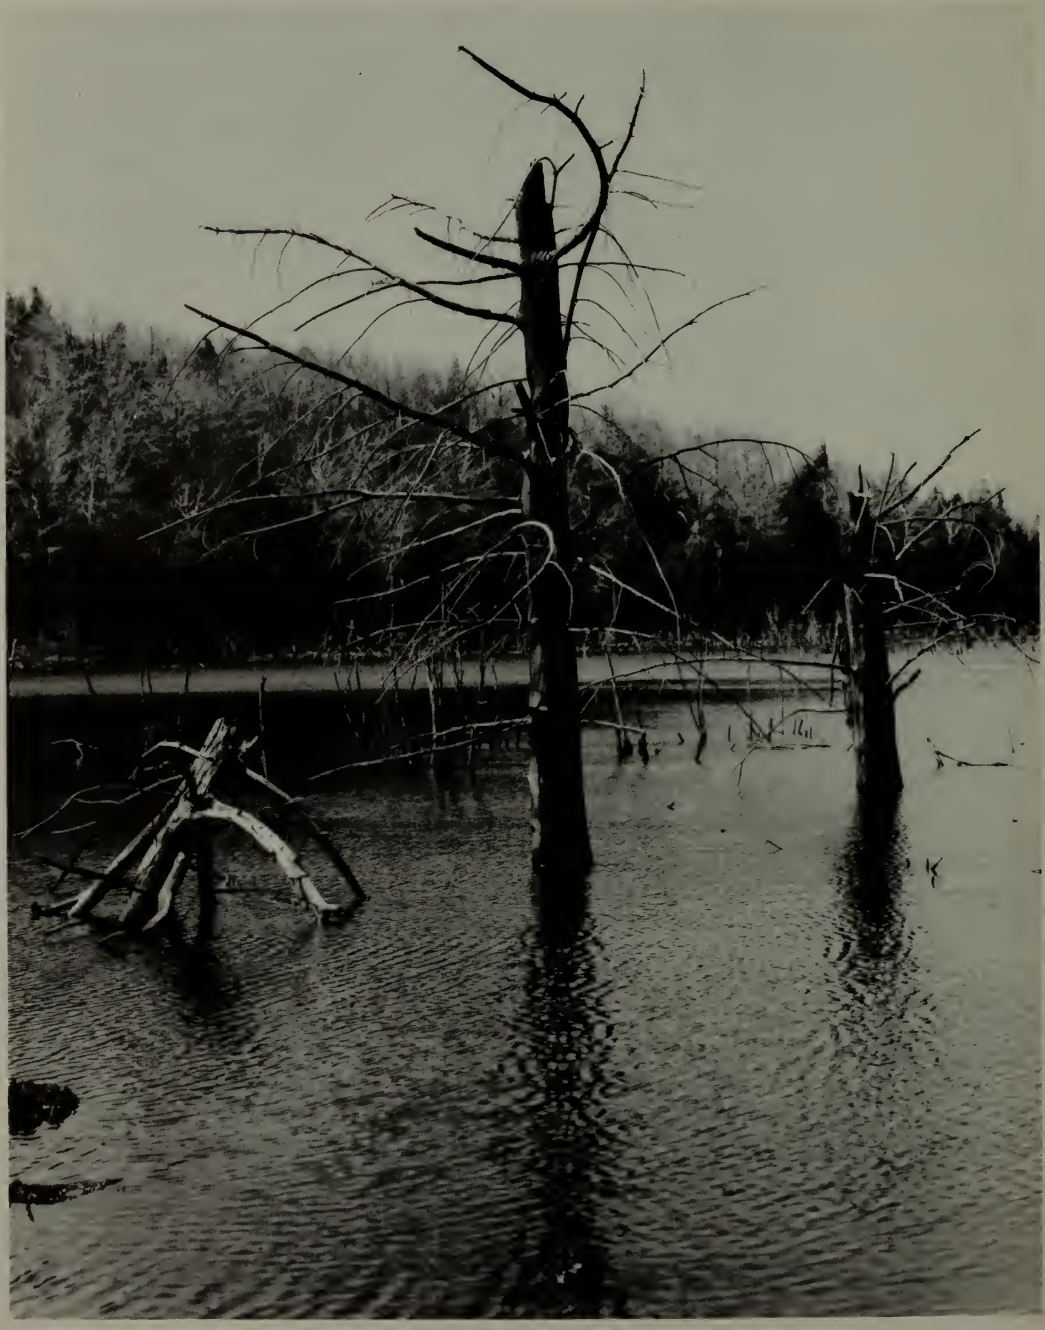

Along with the increasing urgency to acquire critical areas before they are lost we are faced with continuing problems of stewardship. The care and maintenance of our existing properties require money and manpower. In properties which are preserved as habitats for birds or wildflowers or because of their scientific or ecological interest it may be necessary to restrict access. Our obligation is to preserve the ecology of our natural areas, not to provide public recreation, and we cannot permit overuse to destroy those qualities of a reservation which first justified its preservation. At the same time we are engaged in interpretive programs, which include self-guided nature trails, descriptive pamphlets and other material to make available to visitors information about the landscape.

As you will read in the Report of Activities, we have had a busy and productive year. This has been made possible by the encouragement and support of our members. We have an active program which is of critical importance to the Massachusetts landscape, and with continuing assistance from our members we shall be able to acquire further areas and to provide sensitive and thoughtful management for our existing reservations.

John M. Woolsey, Jr.
President

Theodore Chase
Chairman of the Standing Committee

Between Round Mountain and the western ridge of Long Mountain, Hale Swamp, fed by Camp Brook, has been dammed by beavers and is today a shallow pond—McLennan Reservation, Tyringham.

Report of Activities 1977

Acquisition and Preservation

In May, 1977, President Carter, in his Environmental Message, called for the creation of a National Heritage Program.

Its goal: "to preserve those places of special natural, historic and scientific value to ensure that (future generations) will have a chance to know a part of America which we and our ancestors might otherwise have taken for granted." In its land and history, the President declared, a nation finds continuity.

The National Heritage Program was established early in 1978 by the Department of the Interior. We applaud its goals and purposes and we are honored and delighted to be able to help the Massachusetts Department of Environmental Management initiate a Heritage Program here within the Commonwealth as described later in this report.

We also take a special pride in the efforts and accomplishments of The Trustees of Reservations which began America's first heritage program now 87 years ago.

Today The Trustees of Reservations (TTOR) is custodian for 64 "beautiful and historic places and tracts of land" in 46 communities from Berkshire County to Cape Cod, Martha's Vineyard and Nantucket. Properties of TTOR now total more than 14,286 acres. In addition it holds 46 conservation restrictions or easements protecting an additional 4,374 acres—a total of 18,660 acres of land throughout the Commonwealth preserved for environmental purposes. And the variety of landscape is extraordinary.

Six Gifts of Land in Fee

In 1977, TTOR received gifts of land and interests in land totaling 616 acres. They are listed below.

1 The McLennan Reservation, some 446 acres in Tyringham and Otis which include Round Mountain, some 1,500 feet above sea level, and a portion of the ridge and peak of Long Mountain, 1,950 feet. Between Round Mountain and the steep western edge of Long Mountain, Hale Swamp, fed by Camp Brook, has been dammed by beavers and today is a shallow pond. There are white-tailed deer and bear on the land as well as bobcat. Gift of John S. McLennan. The McLennan Reservation is also a key part of TTOR's program to preserve the beauty and still wonderfully rural charm of Tyringham Valley.

2 One-half undivided interest in 153 acres at Nantucket known as the Galls, a narrow barrier beach which joins the northern portion of Coskata with Great Point. The land is now a part of 963-acre Coskata-Coatue Wildlife Refuge which includes more than five miles of ocean shoreline. Gift of Professor and Mrs. Christoph K. Lohmann.

3 One-eighth undivided interest in 8.7 acres of land at Cape Poge, Chappaquiddick Island; upland and beach, a valuable addition to 484-acre Cape Poge Wildlife Refuge. Gift of Dr. and Mrs. Joseph E. Murray.

4 2.8 acres of woodland bordering 438-acre Rocky Woods Reservation in Medfield. Gift of William F. Spang.

5 1.24 acres of woodland in Andover bordering the 597-acre Charles W. Ward Reservation in Andover and North Andover. Gift of Mr. and Mrs. Jon D. Swenson.

6 Twelfth one-twelfth undivided interest in some 149 acres of land at Menemsha Hills Reservation in Chilmark. Gift of Miss Catherine P. Harris and Nathaniel L. Harris. The gift completes the acquisition of some 149 acres of land on the north shore of Martha's Vineyard. The area includes a dramatic sand cliff and a portion of Prospect Hill, the highest hilltop on the Vineyard.

During the year, TTOR purchased additional interests in some 72 acres of land at East Beach, Chappaquiddick, a part of Cape Poge Wildlife Refuge. Together with other interests acquired earlier through purchase and gift TTOR is today owner of 79.15 percent undivided interest in the parcel.

Twelve Gifts of Conservation Restrictions

Also in 1977, TTOR received gifts of 12 conservation restrictions totaling some 520 acres. A conservation restriction or easement protects the scenic and open condition of a significant feature of the landscape while fee title to the property remains in private ownership. Conservation restrictions acquired in 1977 are also listed below:

1 88 acres of open field, woodland and wetland in Dedham including more than one-half mile of frontage on the Charles River. Gift of Mrs. Mason Sears. A part of TTOR's continuing program to protect the scenic beauty and environmental values of the upper Charles River valley.

2 Six restrictions protecting a total of 296.6 acres at Tuckernuck Island, Nantucket as follows: 53.8 acres, gift of Rosamund R. Bodman, Felicia R. Clark and Anne R. Witherby; 13.5 acres, gift of Mr. and Mrs. Robert D. Congdon; 78.9 acres, gift of the LaFarge Tuckernuck Trust; 54 acres, gift of the LaFarge Tuckernuck Trust; 77.8 acres, gift of Mr. and Mrs. John D. Walker—all restrictions with a duration of 30 years. A restriction in perpetuity, gift of Henry C. Carlisle,

Jr., preserves 18.6 acres. The restrictions protect major portions of the island's shoreline and of its two salt ponds, North and East Pond.

3 70 acres of woodland in West Brookfield including a small pond and several dramatically beautiful rock formations. Visitors are invited to enjoy the area. Gift of Walter F. Fullam.

4 Oak Island, eight acres of wooded upland in the salt marshes of Ipswich. Gift of Mr. and Mrs. Arthur H. Phillips. Acquisition of Oak Island is a part of the program to provide additional protection for salt marsh in Ipswich and Essex.

5 Two restrictions protecting 10 acres and 16 acres of wooded land bordering James W. Brooks Woodland Preserve in Petersham. Gift of John Fiske, Jr.

6 14.7 acres bordering 39-acre Noanet Brook Woods in Dover. Gift of Mrs. Henry B. Cabot.

We are enormously grateful to every donor of land and conservation restriction for their generosity and their concern for the preservation of significant portions of the Massachusetts landscape.

Tuckernuck Island Protection Program

Special mention should be made of the program to protect the extraordinary resources of Tuckernuck Island, Nantucket. In early 1977, a Special Steering Committee of island residents and TTOR prepared and initiated a project designed to help protect the island's landscape, its remarkable natural resources and its unique way of life. As the project outline states in part: "The simplicity of this essentially 18th century community is still intact. It is a place where fogs are quiet and comforting, where storms are always exciting and where dawns and sunsets are unsurpassed in beauty. Its hilly moraine and flat and expansive moors make it an ideal model for studying the coastal process. It is important archaeologically because of its early Indian settlements. It supports a varied collection of flora and fauna. It is a favorite site for shore and surf fishing."

The program to preserve Tuckernuck calls first for voluntary use of conservation restrictions or easements to be given to TTOR protecting the most significant natural features of the island. Longer-range plans, now underway, call for more detailed and comprehensive planning: an inventory of the island's natural and cultural resources which will identify critical environmental areas such as shorelines, wetlands both salt and fresh, high land and flood hazard areas as well as documenting the island's historic features.

Working with landowners, plans will then be developed for uses of land areas. Future house and accessory buildings, if permitted by the terms of conservation restrictions, should be

sited to minimize their impact on the visual landscape as well as on the island's sensitive ecosystem.

A natural resources study of the island has been authorized by the Nantucket Conservation District. Members of the Steering Committee for Tuckernuck Island are Mrs. John D. Walker, Chairman, Scott Bartlett, Robert Congdon, Mrs. Peter W. Culman, Mrs. Gustave Dammin, Henry A. LaFarge, William T. Howard, Mrs. Stanley Smith and Mrs. Frederick R. H. Witherby. The program to preserve Tuckernuck is continuing. We hope to be able to acquire additional conservation restrictions in 1978.

Other planned programs in preservation involve 1) the upper Charles River valley; 2) the salt marshes and estuaries of Essex and Ipswich; 3) the Mashpee River; 4) the North River; 5) Tyringham Valley; 6) Jacob Hill, Royalston; and, of course, our continuing campaign to acquire lands to protect the environmental integrity of properties we own already as, for example, our efforts with the Massachusetts Department of Environmental Management to preserve some 52 acres at Halibut Point in Rockport, a magnificent rocky headland on Ipswich Bay bordering Halibut Point Reservation.

Report of the Future Policy Committee

A highlight of the year was the completion of the Report of the Future Policy Committee and the approval of its recommendations by the Standing Committee in October, 1977.

The Report discusses the unique role of TTOR; the vital importance of its service as a trustee and guardian of its properties; policy considerations for the acquisition of properties (especially the completion of existing reservations) and conservation restrictions; the interpretation of the features of its properties; counseling and advisory services for landowners; the organizational structure of TTOR; and its financial resources. Four principal topics considered by the Future Policy Committee were discussed in the Annual Report for 1976. Steps which are being taken to implement the recommendations of the Future Policy Report are described below.

Campaign for Financial Resources

The Report recommends that a major campaign be initiated to raise additional funds to meet the needs of the organization in the years ahead. In planning a campaign for additional financial resources, we are using the "income approach." This involves not only the traditional and immensely important search for capital—endowment from deferred gifts, life income trusts and so forth—but a vigorous emphasis on increasing the

amount received from annual giving which can be added to operating income. In 1977 this totaled $124,843 (restricted and unrestricted gifts, grants and bequests during the year totaled $266,390).

If that $124,843 in unrestricted annual giving could be doubled, it would, in effect, be equivalent to adding some $2.5 million to endowment. There are other sources of income as well which we hope to study. They include our admission fees and sales of related merchandise which presently provide 39 percent of our operating income and which can be adjusted, within limits, to help meet continually rising costs.

We also hope to study the possibility of deriving income from such of our lands as may properly be put to agricultural use while at the same time helping to beautify the landscape, provide for natural diversity, keep fields in cultivation and improve forest areas.

Another source of funds may be The Land Conservation Trust, an allied but independent conservation trust, established by the Standing Committee in 1973 and funded with a $100,000 grant received from Spaulding-Potter Charitable Trusts. The Land Conservation Trust provides a revolving loan fund for conservation purposes and has aided organizations such as the Richard Sever Hale Reservation, the Cape Cod Museum of Natural History and The Trustees of Reservations. Trustees of The Land Conservation Trust are appointed by the Standing Committee. The Trust, which now owns land in North Andover (4.5 acres) and Sheffield (65 acres), is designed to provide flexibility in accomplishing the purposes of conservation and effective land use planning. It may, for example, acquire land and sell a portion of it, preserving the remainder either as public open space or with a conservation restriction.

We are in the process of seeking professional fund raising counsel to provide help in two primary areas: 1) in-house, with a so-called audit or evaluation of the effectiveness of our present fund raising activities and 2) in the field, with a feasibility survey used to measure the acceptability of our programs both present and proposed.

We are also preparing a statement which summarizes the goals of our program for the future and estimates the resources necessary to reach them. This will be primarily the responsibility of our special committees: the Reservations Committee which deals with the acquisition and protection of conservation land; the Committee on Management and Protection which deals with planning and policies designed to provide for the continuing protection of our properties in the years ahead; and the Committee on Interpretive Programs which deals with

policies related to the interpretation of the features of our properties both natural and cultural. Policies governing the improvement of our financial resources through annual giving and increased endowment are formulated by the Committee on Membership and Gifts. All policy matters are finally submitted for approval by the Standing Committee.

SCORP

We are delighted to report that the Statewide Comprehensive Outdoor Recreation Plan (SCORP) produced by the Massachusetts Department of Environmental Management (Director Gordon Abbott, Jr. serves as a member of SCORP's Technical Advisory Committee) will offer an opportunity to expand and extend the Landscape and Natural Areas Project, proposed and directed by TTOR and completed in 1974. LANAP has identified a total of 566 natural areas and significant features of the cultural landscape throughout the Commonwealth.

SCORP proposes as one of its recommendations the establishment of a Massachusetts Heritage Program designed to identify and protect unique natural and cultural resources within the Commonwealth. The Director of TTOR serves as a member of a special subcommittee which will draft guidelines for the Heritage Program.

Charles River Natural Valley Storage Program

In 1977, concerned about future management and use of lands held by the U.S. Army Corps of Engineers within the NVS area, we proposed that a comprehensive plan be prepared by the Metropolitan Area Planning Council working with all communities involved as well as with the Massachusetts Audubon Society, owners of Broadmoor Sanctuary in Natick, and TTOR. Following a number of planning sessions in Medfield, guidelines governing the use of NVS areas have been drafted.

Choate House Restoration

On a warm and sunny Sunday in October, more than 50 persons gathered for a picnic at Hog Island, Cornelius and Miné S. Crane Wildlife Refuge, to celebrate the successful completion of Phase I of the program to repair and restore the Choate House, built in 1740 and birthplace in 1799 of Rufus Choate, attorney, orator and former U.S. Senator and Congressman. Phase II, which will restore portions of the interior of the house, will begin this spring.

Special thanks for the success of the program should go to Vice President David C. Crockett, to Advisory Council member Sidney N. Shurcliff and to consulting architect George R. Mathey of Ipswich. Their guidance and supervision were essential ingredients. Note should also be made of the interest, dedication and the quality of workmanship provided by carpenter and builder John G. Even of Amesbury. We are happy to report that Mr. Even will also complete Phase II.

Above all, we are grateful to everyone who contributed to the campaign which made possible the preservation of the Choate House!

Gifts and Accessions

We acknowledge with great thanks the following gifts and accessions: Morgan G. Bulkeley, III, six early books of pedagogy for the Colonel John Ashley House; Gerard Chapman, a framed copy of the Sheffield Resolutions printed in *The Massachusetts Spy* for the Colonel John Ashley House; Peter L. Hornbeck, collection of early photographs of the gardens of the Richard T. Crane, Jr. Memorial Reservation and for General Headquarters, steel files for plans and drawings and conference tables; Mrs. R. Walter Hurlburt, deed dated October 4, 1738 for land purchased by Colonel John Ashley; Mr. and Mrs. Warren C. Moffett, broadloom runner for Naumkeag; and Sidney N. Shurcliff, early records relating to the Ipswich Beach Association for the Richard T. Crane, Jr. Memorial Reservation.

Mashpee Tribe Vs. New Seabury Corporation, et al

TTOR holds title to two conservation properties in Mashpee preserved for public enjoyment: 135-acre Lowell Holly Reservation received in 1942 as a bequest of Abbot Lawrence Lowell, former President of Harvard University, and Mashpee River Reservation, some 375 acres of land along the Mashpee River acquired in 1959 as a gift from John W. Farley.

In 1976, TTOR was named a defendant in a suit filed in U.S. District Court in Boston by the Mashpee Wampanoag Indian Tribal Council. The class action entitled *Mashpee Tribe vs. New Seabury Corporation, et al*, claimed that the tribe is legal owner of substantial portions of land in Mashpee and Sandwich.

On advice of its counsel, Hill & Barlow, TTOR vigorously defended this suit and was represented as a member of the class of defendants by James D. St. Clair, Esq. of Hale & Dorr.

On Friday, January 6, 1978, a U.S. District Court jury in answering a set of questions put to it by the court, determined, in effect, that the Wampanoag Indians of Mashpee do not constitute a tribe now and have not been a tribe for more than 100 years. Thereupon, the court, concluding that before they could assert their claim to land the Indians must prove their existence as a tribe at the time when the land was alienated and at the time of bringing suit, granted the defendants' motion to dismiss the suit. The plaintiffs have appealed.

North River

Our program to preserve the environmental values of the North River also continues. Deputy Director Garret F. VanWart is a member of a special committee concerned with implementing a program which will designate the North River

as the first Scenic River of the Commonwealth under the Scenic Rivers Act. In 1977, the North River was designated a National Natural Landmark by the National Park Service. Director Gordon Abbott, Jr. has also met with property owners within the river corridor to provide technical assistance and to discuss preservation of portions of their lands. TTOR is custodian for the 100-acre Albert F. Norris Reservation in Norwell with one-half mile of river frontage.

Charles River Peninsula

TTOR has provided enthusiastic support for water quality programs for the Charles River. It was with some concern that we learned in May that Charles River Peninsula Reservation in Needham had been chosen as one of nine possible locations for a Mid-Charles Sewage Treatment Plant. We pointed out to the Environmental Protection Agency that choice of public open space as a possible site is in direct conflict with EPA's own criteria for site evaluation as well as with our program to preserve the scenic beauty of the Charles River corridor. Following a series of meetings it now seems likely that another more suitable location will be found.

Canaan Airport License

For a number of years, TTOR has been concerned about increased noise levels at Bartholomew's Cobble caused by low flying aircraft from nearby Canaan Airport in Canaan, Connecticut. Thus it was with considerable vigor that TTOR opposed the application of the Canaan Airport in July for a commercial license which could have led to an increase in the intensity of overflights and thus increased impact on the tranquility of the Cobble, a Registered Natural Landmark. The license application was opposed also at our request by the Commonwealth's Secretary of Environmental Affairs and by a host of other officials, as well as by the Commissioner of Connecticut's own Department of Environmental Protection. In October, the application for a commercial license was denied by Connecticut authorities. Special thanks for their efforts should go to Advisory Council member and Chairman of the Friends of Bartholomew's Cobble and the Colonel John Ashley House, J. Graham Parsons, to Morgan G. Bulkeley, Chairman of the Cobble's Local Committee, to Supervisor Stanley I. Piatczyc of the Western Management Region, and to Mr. and Mrs. Marcel Tenenbaum, summer residents of Ashley Falls.

Castle Hill Named to National Register

We are honored and delighted to report that the Great House and significant portions of its historic landscape are now included in the National Register of Historic Places. A celebration of this event is planned in May, 1978 at the Great House.

Administration and General

Annual Meeting

The Annual Meeting of TTOR took place on Wednesday, May 11, with the business portion of the meeting at Milton Academy and refreshments afterwards at the Pierce House, General Headquarters of TTOR at the top of Milton Hill.

President John M. Woolsey, Jr. presided. Treasurer H. Gilman Nichols presented members of the corporation with a written summary of financial activities. An Audit Committee was also appointed. And it was voted to express the sincere thanks of The Trustees of Reservations to Charles E. Mason, Jr. who retired as President after six years.

The following new members of the Corporation were elected: Mrs. William H. Claflin, III, Mrs. Robert Cowen, II, Albert M. Creighton, Jr., Stephen H. Forbes, H. Lincoln Foster, George G. Francis, Avram J. Goldberg, Mrs. Daniel S. Gregory, Mrs. Henry R. Guild, Jr., George R. Mathey, John M. Mugar, Donal C. O'Brien, Jr., Hall J. Peterson, John Plimpton, Richard Prouty, Mrs. Burgess P. Standley and William F. Weld.

We are pleased to welcome them all.

As a part of the meeting, members of the Corporation (the Trustees) saw a color slide presentation entitled *The Trustees of Reservations—A Museum of the Massachusetts Landscape.* Narrated by Director Gordon Abbott, Jr., it tells the story of the organization's 87 years of accomplishments, shows the extraordinary diversity of its properties and describes its activities in the field of land conservation. Members of the corporation also toured the Pierce House, admired its view of the Neponset River and Boston Harbor and met members of the Headquarters staff. TTOR is most grateful to Headmaster Jerome A. Pieh for use of conference facilities at the Academy.

August Meeting on North Shore

In keeping with a pleasant tradition which calls for the Standing Committee and the Advisory Council to hold its August meeting in the field, committee members visited Bothways Farm in Essex, whose charming landscape is protected with a conservation restriction given to TTOR by Mrs. Frederic C. Bartlett. Mrs. Bartlett welcomed us all and after coffee, provided a tour of the property. We also visited Agassiz Rock in Manchester, whose integrity has been threatened by the existence of a gravel pit which borders it to the northeast, and, following a delightful picnic luncheon at Mr. and Mrs. I. W. Colburn's in Manchester (Mrs. Colburn is a member of the Advisory Council), we proceeded to Castle Hill where a new management program for the Great House and its surrounding landscape has been established. The day ended with

another special treat, a visit to Appleton Farms in Ipswich, where Mrs. Francis R. Appleton, Jr. led everyone on a tour of the Great Pasture with its magnificent views of rolling field land, forest and farm buildings, finally ending up at the farm homestead for tea. Some 35 persons took part in the day's activities. We are enormously grateful to Mrs. Bartlett, to Mrs. Colburn and to Mrs. Appleton for their hospitality.

Budget Gain for 1977 Fiscal Year

Line-item budgeting of the income and operating expenses for each property, effective budget management and cost control by Management Unit Superintendents and Refuge Managers and an increase in investment income, enabled TTOR to end the 1977 fiscal year on December 31, 1977 with an unaudited operating Gain of $3,006. This includes a transfer of $12,300 to the Reserve for Repairs, Replacements and Extraordinary Expenses and a transfer of $26,000 to the Fund for Acquisition and Protection of Conservation Land. The Budget for 1978 includes increased expenditures for deferred maintenance projects and the replacement of equipment. There are a number of land acquisition projects contemplated as well.

As is traditional, General Headquarters continues to provide detailed quarterly operating statements for each property and to meet quarterly with the Budget Review Committee. Every Superintendent and Refuge Manager spends a full day with the Controller reviewing final budget projections for properties in their management units. They also meet with the Deputy Director and the Director, each of whom is continually involved in the budget process. The budget is finally reviewed by the Director and presented to the Budget Review Committee, the Executive Committee and finally to the Standing Committee for approval.

Pension Plan

In September, 1977, the Pension Plan of The Trustees of Reservations, revised and amended to conform to the requirements of the Employee Retirement Income and Security Act of 1974 (ERISA), was approved and adopted by the Standing Committee. All eligible employees were notified and received a summary of the benefits of the pension plan. Members of the Pension Committee directed the revision of the pension plan.

Program for Volunteers

Thanks to the efforts of Advisory Council member Mrs. Marian F. Thornton, we have begun a study which hopefully will enable us to make more productive use of volunteer time and to increase the number of projects for volunteers at TTOR. The initiation of a formal program for volunteers was recommended by the Future Policy Committee.

Castle Hill Foundation

The Castle Hill Foundation, founded in 1952 as a satellite of TTOR to provide cultural programs and other opportunities

for use of the Great House at the Richard T. Crane, Jr. Memorial Reservation in Ipswich, continues to play an active and vital role. Its concert series in 1977 was expanded to include Friday evenings with an outstanding program highlighted by two delightful 12th century French dramas and Handel's dramatic serenata *Athalia* as well as a most successful early dance and music week for students of court dance.

Income from activities of the Foundation made possible repairs urgently needed to preserve the Great House and its surrounding landscape. A contract was signed and will be completed in 1978 to paint all windows at the Great House, and the entrance courtyard has been paved and graveled. General Manager Mrs. Chirsta E. MacDonald begins her third year at Castle Hill and her administration has achieved new levels of professional competence.

Following recommendations of the Future Policy Report, a Special Study Committee for Castle Hill was appointed to prepare a memorandum of understanding which will provide guidelines for the relationship between TTOR and the Castle Hill Foundation. The Resource and Planning Committee for Castle Hill also continues its efforts to produce a Master Plan which will provide new and vital programs for management and policies governing the preservation of the area in perpetuity.

Committees and Staff

One of the great strengths of TTOR is the quality of its professional staff. We are immensely fortunate to have men and women whose personal standards of achievement are extraordinary, who are able to inspire those who work with them and who have a strong and continuing pride in the appearance of their properties and in the quality of service they provide.

To give the Director more time for activities in the area of land conservation and in the new campaign for additional financial resources, the Standing Committee approved in December the establishment of a new position: Deputy Director for Administration. Qualified applicants are now being sought for the position. The DDA will report to the Director, will be responsible for the administration and execution of all management plans, policies and programs and for supervision and coordination of all full-time and part-time field employees and will work directly with the Deputy Director for Environmental Services.

At General Headquarters, John C. Marksbury, who joined us in 1974 as Projects Officer, was appointed Assistant Director for Membership and Gifts with responsibility for all fund raising and membership activities of TTOR, for the coordi-

nation of all our Friends organizations and for planning and execution of the newly-approved intensive program to secure additional financial resources.

The Standing Committee also approved the addition of a Coordinator of Membership Activities and Special Events to be added to Mr. Marksbury's staff to help with the details of membership records and to produce copy for Newsletters, news releases about our activities and other publications and to help coordinate special events at our properties around the Commonwealth.

Appointment of Regional Supervisor

In keeping with the recommendations of the Future Policy Report we appointed our first Regional Supervisor. Thomas S. Foster, former Superintendent of the South Shore Management Unit, was named Supervisor of the Southeast Management Region with headquarters at Rocky Woods Reservation in Medfield. (In February 1978, Stanley I. Piatczyc, former Superintendent of the Stockbridge Management Unit, was appointed Supervisor of the Western Mangement Region with headquarters at Naumkeag in Stockbridge.)

And at Rocky Woods in Medfield, Stephen E. Bassett was appointed Property Manager. Mr. Bassett is responsible for the administration and direction of all programs and personnel at Rocky Woods. A resident of Medfield, he all but grew up at Rocky Woods and as a youngster served as a member of the volunteer team which managed the natural ice skating program under the able direction of former Superintendent Mario Pederzini, now retired. He thus brings a wealth of experience to the property as well as a great affection for all it offers. Mr. Bassett resides in the Property Manager's cottage at Rocky Woods.

Mrs. Shirley E. Catella, former Head Hostess at The Old Manse, was appointed Administrator of the property in October. With more than 20,000 people visiting The Old Manse each season, Mrs. Catella's staff now totals 14 hostesses and guides.

In October, Mr. and Mrs. Robert W. Carpenter retired as Warden-Naturalist and Head Hostess of Bartholomew's Cobble and the Colonel Ashley House. As former employees of the National Park Service, their contributions were immense and we wish them every happiness. We are pleased to welcome as their successors Mr. and Mrs. Anthony Boutard of Stockbridge, both widely respected for their knowledge and experience in the field of horticulture.

At General Headquarters, Deputy Director VanWart served as a member of the Executive Office of Environmental Affairs' 1977 Forest Policy Review Board and continues as a Trustee of the South Shore Science Center.

The Director continues to serve as a Governor of The Nature Conservancy of Massachusetts, as a Trustee of Manomet Bird Observatory, as a Trustee of Mount Auburn Cemetery, as a member of the Advisory Committee, Statewide Outdoor Recreation Plan and as an Honorary Trustee, Royal Oak Foundation.

Local Committees

Our Local Committees continue to play a vital role in the preservation of their own special areas. Without their interest, knowledge and very real affection for their properties, we would lose a quality and dimension which is essential for the success of our mission.

Obituaries

Sadly, we must report the death in 1977 of Mrs. William A. Berridge, a Trustee and long-time member of the Local Committee for Bartholomew's Cobble whose energies were responsible for helping to create a committee of nationally known figures in the field of the environment; Miss Anne L. Lincoln, an original member of the Local Committee for World's End and a neighbor of the property who always kept an affectionate eye on its protection; Rear Admiral Andrew R. Mack, USN (Ret.), Chairman of the Local Committee for The Mission House and again a neighbor of the property who helped with the details of its housekeeping in countless ways; Francis T. Leland, a long-time member of the Local Committee for Cape Poge Wildlife Refuge and Wasque Reservation; and, in late 1976, George S. Weld, Chairman of the Local Committee for Charles River Peninsula for many years.

In early 1978, TTOR and the nation lost two distinguished and accomplished friends of conservation. Writer and naturalist Hal Borland of Salisbury, Connecticut, author of scores of charming books about the out-of-doors and a regular contributor of editorials on nature to *The New York Times,* died in March. Mr. Borland, a member of the Local Committee for Bartholomew's Cobble since 1963, was among the first some 18 years ago to urge TTOR to acquire and preserve the Colonel John Ashley House. Mr. Borland spoke at our annual Conservation Award Ceremony at the Cobble in 1972.

Scholar, author and historian, Walter M. Whitehill of North Andover also died in February, 1978. A world-renowned preservationist and Librarian and Director of the Boston Athenaeum for many years, Dr. Whitehill was a long-time and beloved friend of TTOR. He became a member of the original Local Committee for the Stevens-Coolidge Place in North Andover when we acquired the property in 1962. He also spoke at our annual Conservation Award Ceremony in 1971.

We were saddened by the news from England that Lord Antrim, Chairman of The National Trust for Places of His-

toric Interest or Natural Beauty, had died on September 25. Many will remember Lord Antrim's visit here and the luncheon at Naumkeag to celebrate the 75th anniversary of The Trustees of Reservations. The historic association goes back to the Trust's founding in 1894. Its articles of organization were patterned directly upon the charter of The Trustees of Reservations and, until 1971, a designee of the Standing Committee served as a member of its ruling council.

Twenty-four Join Local Committees

We were delighted with the appointment of Laurence B. Stein, Jr. as Chairman of the Local Committee for World's End and at Stevens-Coolidge Place, with the appointment of Peter L. Hornbeck as Chairman of the Local Committee. Roland B. Hammond, former Chairman of many years, happily remains a member of the committee. We welcome with pleasure the following new members of Local Committees: *William Cullen Bryant Homestead,* Mrs. Charles Hall; *Coskata-Coatue Wildlife Refuge,* John V. Jamison, 3rd and Donal C. O'Brien, Jr.; *Richard T. Crane, Jr. Memorial Reservation,* David W. Scudder; *Doane's Falls* (a newly-established Local Committee), Robert B. Coyle, Chairman, Mr. and Mrs. David D. Ashenden, Richard Bullock, Mrs. Francis L. Dubriske, Alfred B. Gallup, Dennis P. Mallet, David H. Small, Barney A. Stearns, Mrs. Kenneth Wilcox and John M. Woolsey, Jr.; *North Common Meadow* (a newly-established Local Committee), Hall J. Peterson, Chairman; Mrs. Hall J. Peterson and Mr. and Mrs. John M. Woolsey, Jr.; *The Old Manse,* Stephen E. Cole, Chairman (Edward Reynolds, Jr., former Acting Chairman remains a member of the Committee); Mrs. George B. Barker, Mrs. Richard D. Conant and Mrs. Edward B. Thomas; *Rocky Woods Reservation,* Leo F. Maguire; *Stevens-Coolidge Place,* Samuel S. Rogers; and *Charles W. Ward Reservation,* Alan F. French.

Standing Committee and Advisory Council

The Standing Committee, the governing board of TTOR, and its Advisory Council meet monthly (the second Wednesday) from 12:30 to 2 p.m. at the New England Merchants National Bank in Boston. There are rarely less than 20 members present and often more than 25. Meetings are directed ably and thoughtfully by Standing Committee Chairman Theodore Chase.

The agenda, minutes of the previous meetings of both the Standing Committee and the Executive Committee, and the Report of the Director which contains a description of the previous month's activities and matters for discussion, are mailed to each member before the meeting. Discussions are spirited and all take part in the deliberations which determine the policies of the organization. It is this extraordinary interest and involvement of members of the governing board which give TTOR its strength and make possible its unique accomplishments in the field of land conservation.

The Executive Committee was established by the Standing Committee to handle routine and ordinary matters between its regular monthly meetings. Members of the Executive Committee (the officers of the Corporation, the Chairman of the Standing Committee and one member of the Standing Committee appointed annually by the Chairman) also meet monthly, one week prior to the regular meeting of the Standing Committee.

Special Thanks

We owe special thanks to every member of our governing board and to members of special committees and of Local Committees for all they do throughout the year to help make programs of TTOR a success. We are deeply grateful to them all.

Finally, TTOR would like to express its thanks to its many friends, old and new, whose loyalty and support and dedication and interest in the cause of conservation throughout the Commonwealth continues the magnificent spirit and high ideals which created The Trustees of Reservations 87 years ago.

Respectfully submitted,
Gordon Abbott, Jr.
Director

Management and Protection

The Report of the Future Policy Committee adopted by the Standing Committee in 1977 declared that the first responsibility of TTOR is "the continuing protection and management of properties already owned, and the acquisition of 'inholdings' and adjacencies to insure the adequacy of their protection . . . "

With this mandate, the Committee on Management and Protection met frequently throughout the year to discuss the process of providing master plans for each reservation and to review general management policies. The committee also approved an outline for Resource and Management Profiles, a simplified guide designed to help produce data for preliminary management plans. The long-term goal is to provide a comprehensive management plan for each property. Detailed Master Plans have been completed or are partially completed for the Richard T. Crane, Jr. Memorial Reservation, World's End Reservation, Cape Poge Wildlife Refuge and Wasque Reservation, Albert F. Norris Reservation, Misery Islands Reservation, Cornelius and Miné S. Crane Wildlife Refuge and Chapelbrook Reservation. Abbreviated Resource and Management Profiles exist for many other properties.

Statement of Purpose

As a part of the planning process, the Committee on Management and Protection is preparing statements which describe the purpose of each property, which summarize its significance, environmentally and culturally, and which tell why it is being preserved. Each statement will be reviewed by the appropriate Local Committee.

Master Plans

Comprehensive Master Plans are being prepared for Doane's Falls Reservation in Royalston and for property at Tisbury Pond, West Tisbury, some 586 acres, to which TTOR will receive full title in 1980. Committee members are preparing base maps of both properties and collecting data about the natural and cultural features of the area. We are most grateful to Robert B. Coyle, Chairman, and members of the newly-appointed Local Committee for Doane's Falls and to Benjamin C. Moore, Chairman and members of the Master Plan Study Committee for property at Tisbury Pond.

Visitation Figures

Recorded and estimated visitations for the year 1977 are listed below.

Property	1977	1976
Col. John Ashley House	1,209	1,153
Bartholomew's Cobble	4,356	6,595
Bryant Homestead	441	597
Cape Poge Wildlife Refuge and Wasque Reservation	34,850	34,500
Chesterfield Gorge*	4,206	6,300
Coskata-Coatue Wildlife Refuge	20,750	18,875
Richard T. Crane, Jr. Memorial Reservation**	403,150	380,938
Cornelius and Miné S. Crane Wildlife Refuge	178	162
Halibut Point	8,281	7,680
Lowell Holly Reservation*	3,440	3,128
The Mission House	2,663	2,640
Naumkeag	4,706	4,372
The Old Manse	15,170	21,105
Rocky Woods	30,720	28,791
Stevens-Coolidge Place	312	284
World's End	61,693	58,756
All Other Reservations (estimated)	66,150	63,000
Total Visitation	662,275	638,876

Methods of reporting vary according to the reservation as follows:
*Visitors recorded on weekends and holidays only; **recorded summer season only, based upon an estimated average of 3.5 persons per vehicle.

Gardens Committee

Thanks to the efforts of Advisory Council member and Chairman Peter L. Hornbeck, L.A., the Gardens Committee

has been more active than ever before. Its members are as follows: Gordon S. King, Landscape Architect, Professor, Department of Landscape Architecture, University of Massachusetts; Gary L. Koller, Supervisor of the Living Collection, Arnold Arboretum, Jamaica Plain; Diane McGuire, Landscape Architect, consultant for Wellesley College and Harvard University; Sidney N. Shurcliff, Landscape Architect, Shurcliff & Merrill, Cambridge, member Advisory Council TTOR; and Mrs. A.W. Smith, garden architect and author of *Early American Gardens.* Chairman Hornbeck is Professor of Landscape Architecture and City Planning at Harvard University's Graduate School of Design. In 1977, the Gardens Committee visited Naumkeag, The Mission House, Stevens-Coolidge Place and Castle Hill. Useful and discerning written reports were filed after each visit.

Committee on Collections

The Committee on Collections has set as its goal acquiring a catalogue of the collections at each of our historic houses. Chairman Mrs. David C. Forbes and members of the committee have visited the Colonel Ashley House, The Mission House, the Bryant Homestead, The Old Manse and the Stevens-Coolidge Place to talk with members of Local Committees about initiating a catalogue process which will match the catalogue completed at Naumkeag last year by Mr. and Mrs. Warren C. Moffett. The committee has also established a system for loaning articles in our collections to museums and libraries.

Cooperative Management Agreements

In October, President John M. Woolsey, Jr., Director Gordon Abbott, Jr., Windsor Management Unit Superintendent Warren A. Drew and Deputy Director Garret F. VanWart met with representatives of the U.S. Army Corps of Engineers and the Massachusetts Department of Environmental Management to discuss the establishment of a cooperative management program for some 1,300 acres of land in Royalston including Doane's Falls and Jacob Hill, properties of TTOR. The Massachusetts Division of Forests and Parks agreed to lease for 50 years from the Corps of Engineers and to manage for passive recreation land owned by the Corps along the East Branch of Tully River and Long Pond, all a part of a Federal flood control area. Federal and state agencies supported TTOR management goals for the area and will provide specific management assistance for Doane's Falls Reservation.

TTOR has a cooperative management agreement with the same above agencies which protects land along the Westfield River between Chesterfield Gorge Reservation, Chesterfield, and Knightsville Dam, Huntington. And at Nantucket TTOR serves as an agent for the U.S. Fish and Wildlife Service providing management services for Nantucket National Wildlife

Refuge at Great Point. The cooperative management program includes Coatue Wildlife Refuge, property of The Nantucket Conservation Foundation, and Coskata-Coatue Wildlife Refuge, a property of TTOR.

Storm Damage

The severe storm which brought gale-force winds and heavy, wet snow to Massachusetts last May heavily damaged trees and shrubs at the Ward Reservation in Andover (50 apple trees); at Naumkeag in Stockbridge (Arbor vitae walk); and at the Richard T. Crane, Jr. Memorial Reservation, Ipswich; Elliott Laurel Reservation, Phillipston; Brooks Woodland Preserve, Petersham; and Rocky Woods Reservation, Medfield, where damage to the oak and pine forest was particularly extensive.

A sudden summer storm with high winds toppled an 80-foot willow tree at Stevens-Coolidge Place, one of several striking willows near the greenhouse.

Preserving Natural Qualities of the Landscape

At Bartholomew's Cobble Reservation, Ashley Falls, Regional Supervisor Stanley I. Piatczyc and his staff assisted by Local Committee Chairman Morgan G. Bulkeley and Committee member and landscape architect H. Lincoln Foster, selectively removed shade trees and shrubs on Ledges Interpretive Trail to help preserve the unusual variety of wildflowers and ferns.

At Tyringham Cobble Reservation, Tyringham, white pine and juniper which had succeeded in open fields were controlled, and on the ridge overlooking Tyringham Village, hardwood saplings were cut to preserve the view.

The preservation of vistas and maintenance of the scenic and open character of the landscape is a major management responsibility at many other properties as well. In Hingham Regional Supervisor Thomas S. Foster and his staff devote four weeks to mowing some 180 acres of open land at World's End. At Hog Island, Essex, Refuge Manager Walter A. Prisby and his staff mow its some 100 acres of fields each year. Scheduling permits bobolinks and other songbirds to complete their nesting cycle. Also at Hog Island, abandoned apple trees were restored by volunteers Dr. and Mrs. Donald Burke of Salem and other members of the North Shore Chapter of the Sierra Club. The project has increased production of apples as food for deer and other wildlife.

At the Richard T. Crane, Jr. Memorial Reservation, Superintendent Charles E. Coates, Jr., and Superintendent Wayne N. Mitton of the Andover-North Andover Management Unit and members of their staffs removed 17 American elm trees destroyed by Dutch elm disease. The spruce allée was pruned and sheared by the Bartlett Tree Company using a hydraulic lift to reach the 30-foot high trees. Both projects were made possible by the interest and generosity of Vice President David

C. Crockett. Superintendent Mitton and his staff have also cut and removed dead and charred trees from a portion of Boston Hill, a part of the Charles W. Ward Reservation hit by fire in 1976. Clearing operations will restore superb views of Boston.

Superintendent David A. Ryan and two assistants each summer for six years have cleared sumac and other scrub growth at Misery Islands Reservation restoring the open character of the islands' landscape. Trees and shrubs have been newly planted and specimen trees have been encouraged by careful pruning.

Sand Dune Stabilization

At Coskata-Coatue Wildlife Refuge, Nantucket, members of the Nantucket Angler's Club and Refuge Manager Robert J. Marks, Jr. continued their annual program designed to help stabilize the property's sand dunes using discarded Christmas trees.

Woodland Management

As part of a program of woodland management, 171 mature white pine and a small number of hardwoods were selectively harvested at the Henry L. Shattuck Reservation, some 270 acres in Medfield. The Committee on Management and Protection recommended the project, supervised by the New England Forestry Foundation. The program, which will be continued next year, is designed to improve the aesthetic qualities of the woodland area and to increase the diversity of vegetation to encourage wildlife through natural regeneration and plantings of selected native trees and shrubs.

Structures

Planning was initiated this year to reshingle the roof and point chimneys at Naumkeag. Working with Hallock Associates of Pittsfield as consulting architects, documentation and specifications for the project were prepared. Present roof shingles at Naumkeag were installed in the early 1930's. TTOR has applied for a grant of matching funds from the National Park Service's Grants-in-Aid Program, administered by the Massachusetts Historical Commission. We are most grateful to architect Daniel J. Coolidge, a member of the Advisory Council, for all his advice and assistance.

Cleaning and painting the interior of Naumkeag continued this year. Included were the den, the downstairs hall and the living room. Curatorial assistance was provided by Mr. and Mrs. Warren C. Moffett, members of the Local Committee and the Committee on Collections.

At the Colonel John Ashley House museum lighting was installed in the attic where early American household utensils are on exhibit.

Fire Destroys Barn

On June 29, a fire of undetermined origin tragically destroyed the 130-year old barn at the Stevens-Coolidge Place. Only just restored and all but completely rebuilt by Superintendent Wayne N. Mitton and his staff, the structure was used to store hay and feed for eight polled Hereford cattle owned by Benjamin A. Osgood of North Andover and part of a program designed to encourage agricultural use of land at the Stevens-Coolidge Place. A new stock shed, designed and sited by Peter L. Hornbeck, Chairman of the Local Committee, and members of a special farm project committee, was constructed in late 1977 by Superintendent Mitton and his staff using primarily lumber harvested at Notchview Reservation in Windsor.

Two small utility buildings at Castle Neck, part of the Cornelius and Miné S. Crane Wildlife Refuge, were removed by a local contractor and the area filled and graded. A small float now provides landing facilities from the Castle Neck River. Piers and docking were also replaced at Long Island on the opposite shore.

A portion of the exterior of The Old Manse in Concord was repainted and its bulkhead door rebuilt by Southeast Regional Supervisor Thomas S. Foster and Equipment Supervisor Robert A. Kreger. Supervisor Kreger also constructed two steel gates for entrances at Castle Hill and Crane Beach at the Richard T. Crane, Jr. Memorial Reservation, Ipswich.

Special Projects and Management Programs

At North Common Meadow, some 22 acres adjacent to Brooks Woodland Preserve in Petersham, a topographic survey and base map were completed as part of a plan to manage the area to encourage wildflowers. Assisted by wildflower horticulturists, Hall J. Peterson, Chairman of the Local Committee for North Common Meadow, Mrs. Peterson and President John M. Woolsey, Jr. are coordinating the project with Deputy Director Garret F. VanWart.

With the widening of Route 5 in Holyoke which parallels Dinosaur Footprints Reservation, fill was obtained from A. L. Amaral & Sons Construction Corporation of Ludlow to provide a new parking facility for the property. Other landscape improvements were completed as well, including installation of a barrier to protect dinosaur tracks from highway runoff and deposits of sand and removal of an old cable highway fence.

In July, a fee for parking was established at Wasque Reservation, Chappaquiddick Island. The parking facility has also been relocated to lessen its visual impact and to control compaction of soil and possible damage to ground cover.

To help measure the impact of over-sand vehicle traffic on vegetation advancing from the primary dune area to the

water's edge, a portion of beach at Cape Poge Wildlife Refuge was isolated for study last summer. The project was directed by coastal zone expert Dr. Paul J. Godfrey, Associate Professor of Botany, University of Massachusetts, Amherst, research associate Mark Benedict and Superintendent Foster B. Silva, as well as Standing Committee member Mrs. Robert G. Potter and members of the Local Committee Arnold W. Spofford and Mr. and Mrs. John G. Tyler. Another area of beach adjacent to the control site where vehicles will be allowed was also measured.

At Brooks Woodland Preserve in Petersham, Local Committee Chairman John Fiske and committee member Dr. Ernest M. Gould, research economist at the Harvard Forest, have, with Steven Sher, a graduate student, prepared a base map of the property which identifies trails, stone walls, forest types and contours. The map is a key ingredient in the preparation of a Master Plan for the property.

Following the recommendations of the Local Committee for Lowell Holly and Mashpee River Reservation, the Standing Committee approved plans to regulate power boat and water-skiing activities at Lowell Holly. The action led to a landing fee for power boats and the appointment by the Town of Mashpee's Board of Selectmen of Warden Jeremiah Kelleher as a special waterways police officer.

Cold Winter Sets Record

At Rocky Woods Reservation, an unusually cold winter yielded a record 62 days of ice skating at Chickering Pond.

Concern for Wildlife

The near record cold also affected wildlife, as did a growing winter use of the Crane Reservation in Ipswich for hiking and cross-country skiing and dogs not under the control of their owners. Deputy Director VanWart and Crane Wildlife Refuge Manager Walter A. Prisby met with wildlife biologists at the Massachusetts Division of Fisheries and Wildlife to determine methods of collecting biological data about the area's herd of white-tailed deer from autopsies and to discuss ways of funding a long-proposed research study of the deer population.

Medfield Rhododendrons

In June the Town of Medfield received authorization from the General Court to acquire by eminent domain a permanent sewer easement on land at Medfield Rhododendrons Reservation. Long concerned about possible effect of the construction on the stand of native rhododendrons, TTOR sought and received from Medfield an allocation of $3,000 to engage an independent engineering firm to oversee construction within the Reservation. A bentonite clay dam will provide diversion of the water table away from rhododendron plants.

Utility Corridor

A portion of a liquified gas pipeline from New Brunswick, Canada, to Albany, New York, proposed by the Tennessee Gas Pipeline Company was scheduled to cross land at Notchview Reservation in Windsor until TTOR met with the Tenneco Company. The pipeline will now follow instead an existing power line corridor crossing the south-east corner of the some 3,000-acre property for less than one-half mile. This route will have little impact on the integrity of the Reservation.

CETA Program

Again this year the CETA Program (Comprehensive Employment Training Act) which offers employment with municipalities as well as charitable organizations such as TTOR made available hundreds of man hours for management projects. TTOR and the Town of Medfield were funded for 13 CETA employees as a part of a cooperative agreement to manage lands owned by the Conservation Commission and TTOR. CETA workers were also enlisted at Stevens-Coolidge Place, North Andover; Naumkeag, Stockbridge; Tyringham Cobble Reservation, Tyringham; and at Cape Poge Wildlife Refuge and Wasque Reservation, Chappaquiddick Island. At the Stevens-Coolidge Place a CETA worker later became a full-time employee of TTOR.

Superintendents' Meeting

The annual Superintendents' meeting was held in November in the Central Management Region at the facilities of the Harvard Forest, Petersham. TTOR is grateful to Professor Ernest M. Gould, Jr., Forest Economist at the Harvard Forest, and to Director Dr. Martin Zimmermann for their hospitality of the Forest's living quarters and dining facilities during the two-day meeting. Professor Gould led an informative tour through Forest woodland to explain the changing patterns of land use in the area from its settlement in the early 1700's to current forestration.

Interpretation and Research

Planning for the preservation and use of its properties is a major responsibility of TTOR. Interpretation can play a leading role in explaining to visitors policies which result from the planning process. During the year, the Committee on Interpretive Programs met several times to discuss how the interpretation of the features of the landscape relates to management; how interpretive programs can help membership efforts and improve communication with visitors; what efforts should be made to help visitors understand the broader aspects of the environment; and how to improve understanding of both the natural and the cultural history of properties of TTOR.

It was agreed initially that funds should be provided to reprint existing interpretive booklets. Meanwhile, study continues

toward defining the scope and priority of interpretive programs.

Demonstration Forest at Notchview

TTOR was delighted to receive last year a grant of $4,500 from the Massachusetts Society for Promoting Agriculture. Funds will be used to produce interpretive materials for the long-planned demonstration forest at Notchview Reservation in Windsor. An interpretive trail will be established at the 32-acre Hume Brook forest tract where many overmature red spruce have been selectively harvested. An illustrated trail guide booklet will include 21 stations.

Expanded Program to Protect Terns

In May, TTOR hosted an all-day seminar on the techniques of tern research along the Massachusetts coast. The session was attended by some 15 wildlife biologists, tern wardens and administrators from Massachusetts Audubon Society, Cape Cod National Seashore, University of Massachusetts Co-operative Wildlife Research Unit and TTOR, including Tern Project Chief for the Crane Reservation, Miss Lesley A. Rowse. A wildlife biologist and graduate of the University of Massachusetts, Miss Rowse is the first biologist to undertake the six-week program at Crane Beach since it began in 1968.

After a year, the tern program was re-instituted in 1977 at Cape Poge Wildlife Refuge and Wasque Reservation thanks to the interest and contributions of the Friends of Cape Poge and Wasque and to a volunteer organization of research talent called Earthwatch. Susan B. Whiting, assisted by a team of college interns, conducted the study, involving for the first time here, too, the services of a professional biologist. Plans for a similar program at Coskata-Coatue Wildlife Refuge at Nantucket depend upon finding housing for the project biologist.

A major objective of the program is to monitor and protect tern colonies from human disturbance, and enlist the cooperation and understanding of the public, a publication has been produced entitled *Nesting Terns Need Your Help*. It explains briefly the biology and habitat of terns, factors causing their depletion and how visitors can help protect them. We owe to the generosity of Standing Committee member and naturalist-author John Hay the funds which helped make the booklet and tern program possible. We are grateful as well to the Committee on Natural Resources and Interpretation at Cape Poge Wildlife Refuge and Wasque, especially Chairman Mrs. David Plumb and committee member George Adams.

Interpretive Literature

TTOR hopes to publish in 1978 a *Natural History of Cape Poge and Wasque.* Research and original manuscript by Susan B. Whiting, written and edited by W. Gray Mattern, the booklet, to be illustrated with photographs, is dedicated to the

memory of Gordon T. Getsinger, Jr., the son of Mr. and Mrs. Gordon T. Getsinger of Dobson, North Carolina, long-time summer residents of Chappaquiddick.

Other completed interpretive manuscripts include a *History of the Bryant Homestead* and *History of the Colonel John Ashley House,* each written by historian and author Gerard Chapman. Mr. Chapman, a resident of Mill River, Massachusetts, is a member of the Local Committee for Bartholomew's Cobble and the Colonel John Ashley House.

Respectfully submitted,
Garret F. VanWart
Deputy Director

Membership and Gifts

Despite its considerable and continuing accomplishments, The Trustees of Reservations is not widely known. Its properties are enjoyed by large and ever-expanding numbers (an estimated 662,275 persons last year), yet the membership represents little more than one half of one percent of all visitors. Two major goals in 1978 established by the Committee on Membership and Gifts and approved by the Standing Committee are 1) to increase the number of TTOR's members and 2) to broaden public awareness of the organization's unique history of accomplishments and of its remarkable properties. Plans call for three courses of action.

The first is to recruit new members from those persons visiting properties, using membership/information display units at major reservations to provide literature which describes the activities of TTOR and its role as an independent conservation organization and tells how to join. The second is to attract support from friends and relatives of current members as well as from residents of communities where properties are located. Volunteer Area Representatives will contact prospective members in different areas of the Commonwealth by letter, by telephone and in person providing opportunities to visit properties nearby. Names and addresses of friends supplied by present members via the gift return card have helped enormously to build lists of prospective members. They are deeply appreciated.

A third course of action calls for the production of additional publications and audio-visual materials which will provide information about the techniques of land conservation for landowners themselves as well as for community organizations, public resource agencies and local and regional land trusts.

Admission Privileges for Members

The Committee on Membership and Gifts has proposed changes which relate to the benefits of membership. It has recommended, and the Standing Committee has approved, extending admission privileges at properties of TTOR to all members.

These privileges are offered with a view toward encouraging interest in TTOR and its activities and to increase appreciation, understanding and enjoyment of the special features of its now 64 properties.

The new membership program will take effect this year. Details will be explained to present members in a special mailing this summer. In brief, persons will be asked to subscribe to any of nine categories of membership and in return will receive a Membership Card providing entry to historic house museums and to other properties owned by TTOR where admission fees are charged. In addition, members may purchase parking tickets for the Richard T. Crane Memorial Reservation, Ipswich, at a discount, and at Rocky Woods Reservation, Medfield, may receive discounts on annual Family and Individual Season Tickets. Members' cards will be valid for one full year and renewable on the anniversary date of membership.

In approving this program, the Standing Committee stressed the important difference between membership subscriptions and contributions. The introduction of expanded member benefits plus publications, mailings and staff required to provide membership services, all point to an increase in costs. Basic membership fees ($15 Individual, $25 Family) have been set with this in mind and every effort will be made to keep the cost of administering membership services at a minimum. *TTOR will rely on contributions over and above a Member's subscription to help continue the effective management and protection of its properties as well as to raise funds for special purposes such as the acquisition of conservation land.*

Information/ Education Program

TTOR is seeking foundation support to establish an Information/Education Program in connection with its plans to expand public recognition of its purposes.

Funds will be used to produce a comprehensive booklet describing the services and activities of TTOR as well as booklets about its unique history, and how gifts of land and/or conservation restrictions can help landowners and their communities, a color slide/sound presentation about the organization, a membership subscription folder with a map of the Commonwealth and descriptions of the properties, and portable membership/information display units to appear at major reservations.

TTOR Decal

An attractive decal bearing the familiar pine tree logo of TTOR is now available. Applied to the inside of your car window, it proudly identifies you as a member. It is mailed on receipt of a regular subscription or contribution to TTOR of $15 or more and is available to members upon request.

Student Member

Beginning in 1978, students at elementary schools, high schools, colleges or graduate schools may become members of TTOR with an individual subscription of $10. Students of every age have been increasingly providing a welcome multitude of services which vary from tending lawns and clearing trails to helping produce resource inventories and Master Plans. Student membership is being offered as a way of recognizing vital contributions many perform as volunteers and to encourage continuing student interest in the environment and in the activities of TTOR.

Gifts

During the year, TTOR received 2,554 gifts to help meet current operating expenses and for restricted purposes. In addition, 129 memorial gifts were recorded by the Office of Membership and Gifts. Gifts to TTOR in 1977 totaled $266,390.

The Trustees of Reservations was delighted to welcome 566 new members, many joining as a result of the establishment of two new Friends organizations: the *Friends of Coskata-Coatue Wildlife Refuge,* Nantucket, and the *Friends of World's End Reservation and Whitney & Thayer Woods,* Hingham and Cohasset. Detailed figures appear below.

Income Funds	Amount	Donors
General Fund	$ 70,807	1,034
Friends of Bartholomew's Cobble and the Colonel John Ashley House	9,871	240
Friends of Cape Poge Wildlife Refuge and Wasque Reservation	12,365	301
Friends of Misery Islands Reservation	5,825	219
Friends of Coskata-Coatue Wildlife Refuge	10,327	338
Friends of World's End Reservation and Whitney & Thayer Woods	7,940	331
Designated Reservations	7,708	18
Total Amount and Donors	$124,843	2,481

Endowment and Special Purpose Funds	Amount	Donors
Reservation Endowment	$ 6,000	2
Oliver Dwight Filley Fund	3,100	3
Conservation Restriction Fund	25,440	8
Memorials and Special Projects	29,420	183
Fund for the Acquisition and Protection of Conservation Land	29,420	4
General Fund (principal)	52,500	2
Total Amount and Donors	$141,547	202

Friends of World's End Reservation and Whitney & Thayer Woods

In early May, the newest Friends organization (there are now five) was established following a mailing of more than 5,500 letters appealing to residents of the South Shore and to original contributors to the campaign to acquire and preserve World's End. By year's end, the Friends of World's End Reservation and Whitney & Thayer Woods had 331 members who contributed $7,780 to provide for the continuing management and protection of the two properties. With membership providing admission privileges at World's End (there is no charge for admission to Whitney & Thayer Woods), the season ticket system there will be discontinued. Income received from last year's membership subscriptions, after costs, was nearly five times greater than that previously provided by season ticket sales.

Treasurers of Friends Organizations

Treasurers of the five Friends organizations are each responsible for the receipt and accounting of all contributions which have been mailed to their addresses or picked up at local post offices. Perhaps most important, they are responsible for thanking each donor. Last year the Friends collectively raised a total of $46,328 from 1,429 donors. For their meticulous care and devoted accomplishments we owe great thanks to Mrs. Peter R. Valenti, Friends of Cape Poge Wildlife Refuge and Wasque Reservation; to Mrs. John R. Downie, Friends of Bartholomew's Cobble and the Colonel John Ashley House; to Mrs. Raymond St. Pierre, Friends of Misery Islands Reservation; to Mrs. R. Arthur Orleans, Friends of Coskata-Coatue Wildlife Refuge; and to Charles E. Pearce, Friends of World's End Reservation and Whitney & Thayer Woods.

Each of the Friends organizations has its own Chairman, Vice Chairman, Secretary and Treasurer who play a crucial role in its success. We are happy to welcome Arthur C. Chase of Sheffield, retired Assistant Headmaster at Berkshire School and former Chairman of the Board of Selectmen in Sheffield, who has joined the Friends of Bartholomew's Cobble and the Colonel John Ashley House as a Vice Chairman.

Field Days and Events for Members

In addition to the Naumkeag Lecture and the annual Conservation Award ceremony, there were four special activities for members in 1977. In June, Bartholomew's Cobble celebrated its third annual Field Day; the Friends of Cape Poge Wildlife Refuge and Wasque Reservation helped christen the acquisition of land at Mytoi with a garden party in August; the Friends of World's End and Whitney & Thayer Woods offered horse-drawn hay rides and nature walks at an inaugural Field Day in October; and at the Manchester Yacht Club in November, Superintendent David A. Ryan presented a lecture illustrated with color slides of Misery Islands. All except the Field Day at World's End, unfortunate victim of a rainy three-day northeaster, were enjoyed by large and enthusiastic numbers of people.

Reviving an annual custom established by the late Laurence B. Fletcher, Executive Secretary of TTOR from 1929-1958, the administrative staff and Trustee Mrs. Henry R. Guild, Jr. led a tour for Trustees (Members of the Corporation) of properties in the Western Management Region in September. Trustees, Chairmen and members of the Local Committees and professional staff in Western Massachusetts were hosts for the wonderfully pleasant three-day excursion. Festivities included a cocktail party for 63 persons at Mr. and Mrs. Stephen V. C. Morris's in Lenox (Mr. Morris is Chairman of the Local Committee for Naumkeag). We are most grateful to Mrs. Guild, to Mr. and Mrs. Morris and to all who helped make the program a success.

Conservation Award

The 1977 Conservation Award was presented to Robert S. Russell of Princeton for his achievements as founder of the Massachusetts Land League and as a longtime and accomplished advocate for the effective management and protection of the Commonwealth's woodlands and open spaces. The luncheon ceremony took place on October 16 under a bright red and white marquee in Petersham. It was attended by more than 185 persons including members of the Land League. The day featured remarks by President John M. Woolsey, Jr. and John Fiske, Chairman of the Local Committee for Brooks Woodland Preserve in Petersham. Speaker for the occasion was Dr. Ernest M. Gould, Jr., forest economist at the nearby Harvard Forest.

Distinguished Publications

TTOR starred in two distinguished publications in 1977. In its June issue, SMITHSONIAN Magazine featured an article entitled "Yankee heritage is secured without government aid," written by Frederick J. Pratson and illustrated with superb color photographs by Alfred Eisenstaedt.

And in a Viking Press publication, *Massachusetts From the Berkshires to the Cape,* which features photographs by Nancy Sirkis, the late historian Dr. Walter Muir Whitehill, valued

friend of TTOR, begins his text with a chapter entitled "Preservation of the Landscape." It includes an extensive and wonderfully written account of the beginnings of TTOR and personal observations about its accomplishments through the years.

Naumkeag Lecture

The tenth Naumkeag Lecture entitled *Naumkeag: Its Contrasts in Tastes and Styles,* delighted an audience of 135 persons, the largest ever, with colored slides and a new and intimate view of the mansion's unique collection of porcelain, paintings and furniture. Lecturer Warren C. Moffett and his wife Anne spent two years as volunteers completing the first catalogue of the collection at Naumkeag. In a brief ceremony following the lecture, Theodore Chase, Chairman of the Standing Committee, thanked Mr. and Mrs. Moffett for their extraordinary accomplishments and on behalf of TTOR presented them with a copy of David Sanctuary Howard's book, *Chinese Armorial Porcelain.*

Two Grants

Two grants received by TTOR in 1977 deserve special mention. The first was a magnificent gift of $50,000 from the George B. Henderson Foundation of Boston. Made without restriction, it has been added to the principal of the General Fund. The second was a grant of $4,500 from the Massachusetts Society for Promoting Agriculture which will make it possible to establish a long-planned demonstration forest program at Notchview Reservation in Windsor.

TTOR was notified in December, 1977, that Naumkeag, Stockbridge, and Castle Hill, Ipswich, have been awarded matching grants by the Massachusetts Historical Commission as a part of the National Park Service's Preservation Grants program. The grant to Naumkeag totals $35,000 and will help restore the roof and chimneys. The grant for Castle Hill totals $40,000. It will fund a program to repair and restore the Great House and surrounding landscape structures. Naumkeag was also chosen by the Massachusetts Council on the Arts and Humanities to receive a grant of $550 to restore two drawings in its collection by John Singer Sargent as well as a Delft garniture. Efforts are planned to raise matching funds which are necessary to receive the grants.

Respectfully submitted,
John C. Marksbury
Assistant Director
for Membership and Gifts

Donors picnicking in view of restoration progress at Hog Island celebrate the successful campaign to raise $25,00 for critical repairs to the Choate House (1725-1740) —Cornelius and Miné S. Crane Wildlife Refuge, Essex and Ipswich. TTOR is guardian for seven historic houses.

Financial Report

This report covers the calendar year ending December 31, 1977. It is the first report covering a full calendar year since the fiscal year ending was changed in 1976 from October 31 to December 31.

During the year, the value of our resources on the books rose to $8,002,709 from $7,604,694, primarily due to the acquisition of additional properties.

The operating statement for the year shows receipts of $870,633 with disbursements and transfers of $867,401 resulting in a surplus of $3,232. With the change in the fiscal year, direct comparison with the prior year is not possible, but, in general, 1977 was a favorable year.

Income from investments, fees and gifts were all ahead of the prior 12 months. Because of this improvement in income and the efforts of the Director and the Staff to control costs, we were able to transfer $26,000 to the Fund for the Acquisition and Protection of Conservation Land and another $12,300 to the Reserve for Repairs, Replacements and Extraordinary Expenditures. In addition to the property with which we have been intrusted, our major resource is the people who care for it and provide for its enjoyment by the public. Personnel costs for the year were $514,266, or approximately 60 percent of total disbursements.

For 1978 we are budgeting a modest surplus which, if we manage to achieve it, will be the third successive year in which income has exceeded expense. To do this, we will have paid a price in terms of deferred expenditures and programs. Our first million dollar budget is not far ahead as the size and complexity of our activities increases. If The Trustees of Reservations is to go forward, it must rely increasingly on the continuing generosity of its members and friends.

Respectfully submitted,

H. Gilman Nichols, Jr.
Treasurer

Mr. H. Gilman Nichols, Treasurer
The Trustees of Reservations
Milton, Massachusetts

Dear Mr. Nichols:

I have examined the Balance Sheet of The Trustees of Reservations as of December 31, 1977 and the related Statements of Income and Expense and Changes in Funds for the year then ended. The examination was made in accordance with generally accepted auditing standards, and included such tests of the accounting records and other auditing procedures as I considered necessary in the circumstances.

I hereby certify that the accompanying Balance Sheet and Statements in support thereof present fairly the financial position of The Trustees of Reservations at December 31, 1977 and the results of its operations for the year then ended in conformity with generally accepted accounting principles consistent with that of the preceding year.

Cortland B. Bacall
Certified Public Accountant

27 State Street
Boston, Massachusetts
April 14, 1978

Notes to the Accounts

1. Budd Trusts
The Trustees of Reservations is a residual beneficiary under the Arthur and Helen Budd Trusts with a book value of $4,178,428 and receives income each year from these trusts.

2. Pooled Funds
All Reservation and Memorial Endowment Funds, with the exception of The Mission House and Naumkeag, are pooled for investment purposes. Income is assigned quarterly to each fund according to its unit share of the total account. If additions are made to principal in any single account, its number of units, or share of the total, is raised proportionately, thus allowing a proportionate increase in growth and income. In the same way, each fund also shares in an appreciation of principal and in an increase of dividends.

3. Funds
The Trustees of Reservations has two major capital funds. The income from these funds, together with fees and annual gifts, provides the money for operations.

Reservation and Memorial Funds have been given to maintain and protect certain of the Trustees' properties. The expenditure of income or capital from these funds is governed by the terms of the gift. Separate accounts are maintained for each of these funds, but they are pooled for investment purposes. In a few cases, income is restricted solely to maintaining a specific property. Similarly, the use of capital has sometimes been restricted by the donor.

The *General Fund* consists of moneys not associated with a specific property. With few exceptions, this fund is unrestricted as to principal and income and this flexibility has been vital to The Trustees of Reservations over the years. Unrestricted gifts of $5,000 or more are added to the General Fund.

Land, Buildings and Personal Property are carried on the balance sheet at book value.

The Standing Committee of The Trustees of Reservations has also created several designated purpose funds:

1) The *Reserve for Repairs, Replacements and Extraordinary Expenses* is designed to meet large or unusual expenses and provides a source for the replacement of major items of equipment. Routine maintenance and replacements are paid for with operating funds.
2) The *Fund for Acquisition and Protection of Conservation Land* was established to enable The Trustees of Reservations to acquire property immediately in order to take advantage of special circumstances. This fund has allowed The Trustees of Reservations to purchase numbers of important properties in the past.
3) The *Conservation Restriction Fund* is of ever-increasing importance as The Trustees of Reservations assumes growing responsibilities in the area of conservation restrictions. These funds will be used to administer, inspect, protect and defend, if necessary, properties in accordance with the terms of the restrictions.
4) *Special Project Funds* have also been established by The Trustees of Reservations as it receives gifts or grants for projects of limited duration such as the restoration of a house museum or the publication of an interpretive booklet.

Conservation Award

Each year since 1934, The Trustees of Reservations has honored outstanding service and notable accomplishments in the field of conservation and the environment. The Conservation Award, a silver tray, inscribed with the traditional white pine symbol of The Trustees of Reservations, has been presented to the following distinguished recipients:

1934	Dr. John C. Phillips
1935	Samuel A. York
1936	William P. Wharton
1937	John S. Ames
1938	Mrs. S.V.R. Crosby
1939	John D. Rockefeller, Jr.
1940	Mrs. James J. Storrow
1941	Newton Bishop Drury
1942	Robert Moses
1943	Frederick Law Olmsted, Jr.
1944	William Sumner Appleton
1945	Jay Norwood Darling
1946	Charles Sumner Bird
1947	Harlan Page Kelsey
1948	Harris Aquilla Reynolds
1949	Laurence Brown Fletcher
1950	Fairfield Osborn
1951	Louise du Pont Crowninshield
1952	Charles Russell Mason
1953	Walter Prichard Eaton
1954	Benton MacKaye
1955	Robert Walcott
1956	Arthur Theodore Lyman
1957	Fred Smith
1958	George Burnham Wells
1959	Dr. Joel E. Goldthwait
1960	Hon. Francis W. Sargent
1961	William Roger Greeley
1962	Hon. Leverett Saltonstall
1963	Donald B. Miller
1964	Dr. George C. Shattuck
1965	Allen H. Morgan
1967	Charles H. W. Foster
1968	People of Hingham and the South Shore
1969	Charles W. Eliot, II
1970	Mrs. Seth Wakeman
1971	Mrs. Horatio Rogers
1972	Morgan G. Bulkeley
1973	Richard Borden
1974	Thomas D. Cabot
1975	John W. Peirce
1976	Frederick T. Pratt
1977	Robert S. Russell

Founder and Secretary of the Massachusetts Land League, Robert S. Russell, center, recipient of the 1977 Conservation Award. President John M. Woolsey, Jr., left, presented the Award at ceremonies in Petersham, October 16. Speaker was Dr. Ernest M. Gould, Jr., right, Senior Lecturer in Biology and Forest Economist at the Harvard Forest, Petersham.

Properties 1897–1978

First Acquired		Approximate Acreage
1897	Mount Ann Park, Gloucester	87
1897	Rocky Narrows, Sherborn	77
1898	Governor Hutchinson's Field, Milton	10
1899	Monument Mountain Reservation, Great Barrington	257
1905	Petticoat Hill, Williamsburg	60
1928	William Cullen Bryant Homestead, Cummington	189
1929	Chesterfield Gorge, West Chesterfield	161
1933	Whitney and Thayer Woods, Cohasset and Hingham	799
1934	Medfield Rhododendrons, Medfield	196
1934	Halibut Point, Rockport	12
1935	Dinosaur Footprints, Holyoke	8
1935	Misery Islands, Salem	83
1936	Pine and Hemlock Knoll, Wenham	14
1939	The Old Manse, Concord	8
1940	Charles W. Ward Reservation, Andover	598 [1]
1941	Elliott Laurel Reservation, Phillipston	33
1942	Rocky Woods, Medfield	441 [3]
1942	Lowell Holly Reservation, Mashpee and Sandwich	135
1944	Holmes Reservation, Plymouth	26
1945	Richard T. Crane, Jr. Memorial Reservation, Ipswich	1,352
1946	Bartholomew's Cobble, Ashley Falls	207
1948	The Mission House, Stockbridge	½
1951	Royalston Falls, Royalston	205
1952	Old Town Hill, Newbury	276
1952	Redemption Rock, Princeton	¼
1955	Crowninshield Island, Marblehead Harbor	5
1956	Pegan Hill, Dover and Natick	32
1957	Agassiz Rock, Manchester	104
1957	Pierce House, Milton	6
1959	Cape Poge Wildlife Refuge, Chappaquiddick	484 [27]
1959	Doane's Falls, Royalston	30
1959	Mashpee River, Mashpee	375
1959	Naumkeag, Stockbridge	46
1959	Noon Hill, Medfield	52
1960	Charles River Peninsula, Needham	29
1962	Stevens-Coolidge Place, North Andover	89
1962	Tantiusques (Graphite Mine), Sturbridge	55
1963	Tyringham Cobble, Tyringham	206

1964	Chapelbrook, S. Ashfield	128
1964	Pamet River, Truro	20
1964	Glendale Falls, Middlefield	60
1966	Notchview, Windsor	3,000
1966	Menemsha Hills, Chilmark	149 [12]
1966	Fork Factory Brook, Medfield	62
1967	World's End, Hingham	251
1967	Wasque, Chappaquiddick	200
1968	Bear's Den, North New Salem	3
1968	Bear Swamp, Ashfield	171
1968	Weir Hill, North Andover	183
1968	Meadow Lots, Medfield	16
1970	Henry L. Shattuck Reservation, Medfield	270
1970	Albert F. Norris Reservation, Norwell	100
1970	Appleton Farms Grass Rides, Hamilton	123
1974	Bridge Island Meadows, Millis	80
1974	Coskata-Coatue Wildlife Refuge, Nantucket	963 [153]
1974	Cornelius and Miné S. Crane Wildlife Refuge, Ipswich and Essex	700
1975	James W. Brooks Woodland Preserve, Petersham	366
1975	Jacob Hill, Royalston	53
1975	Greenwood Farm Salt Marsh, Ipswich	118
1975	Noanet Brook Woods, Dover	39
1975	North Common Meadow, Petersham	22
1976	Medouie Creek, Nantucket	5
1976	Mytoi, Chappaquiddick	11
1977	McLennan Reservation, Tyringham	446
	Total approximate acreage	**14,286**

Total represents acreage as of December 31, 1977, and includes acreage acquired during calendar year 1977 shown in brackets [ ].

Conservation Restrictions

1972	Charles River, Sherborn	81
1973	Longacre Farm, Medfield	63
1973	Prospect Hill, Chilmark	8
1974	James W. Brooks Woodland Preserve, Petersham	6
1974	Castle Neck River, Ipswich and Essex	227
1974	Hunnewell Pinetum, Wellesley	5
1974	Mayhew Island, Chilmark	7
1975	Castle Neck River, Ipswich	32
1975	Charles River, Westwood and Dedham	18
1975	East Hollyholm, Chilmark	75
1975	Seven Gates Farm, Chilmark and West Tisbury	1,100
1975	Trout Brook, Dover	110
1976	Bothways Farm, Essex	99
1976	Charles River, Millis	20
1976	Charles River, Sherborn	24
1976	Ipswich River, Ipswich	30
1976	Nashawena Island, Gosnold	1,900
1976	Tiah's Cove, West Tisbury	65

1977	Charles River, Dedham	88
1977	Noanet Brook Woods, Dover	15
1977	Oak Island, Ipswich	8
1977	Rockhurst Hill, West Brookfield	70
1977	Tuckernuck Island, Nantucket	297
	Total approximate acreage	**4,374**

A fisherman works the shallow rapids which course Lawrence Brook below Doane's Falls, Royalston.

A Museum of the Massachusetts Landscape

In 1890, long before the present national interest in the environment, a young landscape architect returned from study in Europe with a deepening concern for the need to preserve the natural beauty and historic sites of his community.

Early that year, Charles Eliot (1859–1897), just 31 years old and son of Charles W. Eliot, then President of Harvard University, proposed the establishment of an organization "empowered to hold small and well distributed parcels of land . . . just as the Public Library holds books and the Art Museum pictures for the use and enjoyment of the public."

The Trustees of Reservations was incorporated by the Massachusetts General Court a year later (Chapter 352, Acts of 1891), the first independent organization in the United States established for the purpose of preserving land.

The Trustees of Reservations acquires land for open space, natural areas or historic preservation either by deed or by legacy from the donor. When property is purchased, The Trustees of Reservations depends upon contributions to help defray the costs. Gifts of either land (at fair market value) or money qualify for Federal income tax deduction up to 50 per cent of the donor's adjusted gross income. The Trustees of Reservations may also acquire conservation or preservation easements or restrictions.

Besides the General and Friends membership, there are some 150 members of the corporation, traditionally called "Trustees." The organization's governing board is its 14-member Standing Committee which meets monthly. There is a small paid staff.

For each Reservation, with some exceptions, there is a Local Committee. Its members are usually residents of the area in which the Reservation is located. They provide a vital interest in its care and may help administer and oversee it as circumstances require.

Charles Eliot

Landscape Architect
1859–1897

The frontier's edge once met the graceful doorway of the Colonel John Ashley House (1735), oldest dwelling in Berkshire County—Bartholomew's Cobble Reservation, Ashley Falls.

Membership

Funds are earnestly needed to carry on the work of the present and to meet the challenges of the future.

A very large share must come from the subscriptions and contributions of members. It is this support which has been so vital to the success of The Trustees of Reservations and upon which new accomplishments will depend. Members are the life blood of the organization.

You may join in any of nine catagories and, if you wish, assign your subscription to the special program or reservation of your choice.

Or, you may choose to help support the continuing preservation of one or more properties which are served by a *Friends* organization: the *Friends of Bartholomew's Cobble Reservation and the Colonel John Ashley House,* Ashley Falls; the *Friends of Cape Poge Wildlife Refuge and Wasque Reservation,* Chappaquiddick, Martha's Vineyard; the *Friends of Coskata-Coatue Wildlife Refuge,* Nantucket; the *Friends of Misery Islands Reservation,* Salem Bay; and the *Friends of World's End Reservation and Whitney & Thayer Woods,* Hingham and Cohasset.

Becoming a Friend means that you become a member of The Trustees of Reservations as well, but your subscription is assigned directly to the property of your choice to help meet its cost of operations and to provide funds for special conservation projects.

Subscriptions and contributions to The Trustees of Reservations or to any of its *Friends* organizations are deductible for Federal income tax purposes to the extent provided by law.

Gifts of Securities

Many persons may find that a gift of appreciated securities is an attractive way of contributing to The Trustees of Reservations.

A gift of long-term securities is deductible for their fair market value subject to limitations set forth in the Internal Revenue Code.

How to Give Securities

Inform The Trustees of Reservations that you wish to make a gift of securities. Instruct your broker or financial representative to hold the stock for the account of The Trustees of Reservations pending instructions from The Trustees of Reserva-

tions as to registration and/or disposition of the securities. Gifts of securities should be directed to the attention of the Treasurer, H. Gilman Nichols, The Trustees of Reservations, 224 Adams Street, Milton, Massachusetts 02186. If securities are to be delivered to The Trustees of Reservations directly, they should be sent by registered mail to Antony Edgar, Senior Vice President, New England Merchants National Bank, 28 State Street, Boston, Massachusetts 02109. In addition, an executed stock power should be mailed under separate cover.

Bequests

The Trustees of Reservations received its first bequest in 1902, a legacy of $2,000 for the general purposes of the organization from Joseph B. Glover, a public-spirited Bostonian.

It set an example of thoughtfulness and generosity which has been followed throughout the years, enabling The Trustees of Reservations to successfully accomplish its charter purposes preserving, for public enjoyment, "beautiful and historic places and tracts of land within the Commonwealth of Massachusetts."

Many persons who have given their properties to The Trustees of Reservations have provided endowments which have helped assure their continuing preservation. Others who have cherished a particular property or the memory of its original donor have bequeathed funds whose income is directly assigned to meet the costs of that property's management and protection.

Others have given bequests whose income is unrestricted, enabling The Trustees of Reservations to acquire and maintain properties of significant environmental value without specific endowment.

Forms of Bequests

A donor who wishes to make a bequest to The Trustees of Reservations may use one of several testamentary forms. Donors are advised to consult their lawyers and financial advisors when making any gift of size and complexity.

Sample forms of both a restricted and unrestricted bequest are as follows:

Unrestricted Bequest "I give to The Trustees of Reservations, a Massachusetts charitable Corporation, (the sum of $_____) (all the rest, residue and remainder of my estate) to be applied to the general uses and purposes of said Organization."

Restricted Bequest "I give to The Trustess of Reservations, a Massachusetts charitable Corporation, (the sum of $_____) (all the rest, residue and remainder of my estate) to be used for the following specific use or purpose_____."
